Excerpt from: California Community College Mental Health and Wellness Association Bylaws, Article IV - Membership

A. Regular Member (Institutional / Individual): Dues as set by Article V. Open to licensed mental health professionals employed by a California community college. (Mental Health, Alcoholism and Drug Abuse Counselors, Rehabilitation Counselors, Psychiatric nurses) and/or mental health professionals whose primary job duties are the provision of student mental health services in a California Community College.

B. Associate Member (voting: only one member, one vote) Note: only one Health Professional Consultant. Dues set by Article V. A licensed health professional working in a California Community College campus student health center with primary responsibility for student health services. Must be a current member of Health Services Association of California Community College (HSACCC).

C. Associate Member (non-voting) – Dues as set by Article V. Once the institution is represented, any additional community college mental health advocate, mental health care professional working in the mental health services setting, as well as community advocates for college mental health services, may join the organization as an associate member.
