The Top 5 Reasons to Attend the MHWA Fall 2014 Meeting

1. **Get inspired!** Learn how to use the NCHA data to target needs and to craft meaningful SLOs/SAOs.
2. **Share and exchange ideas** – ask questions of your colleagues who really know about your work.
3. **Discuss key topics, such as prevention work, clinical outcomes, and meeting demand**
4. **\$20 for 3 CE hours**
5. **Restore and renew** – Research shows that College MH professionals require adequate leisure time for optimal functioning, but rarely get enough. Promote your effectiveness via a weekend getaway to the beautiful Santa Rosa Wine Country!

Keynote Presentation

CCC Students' Health: Survey Findings & Next Steps Presentation abstract

The National College Health Assessment data is a potential gold mine, but how do you use it? We'll review the very latest NCHA research findings, outline practical applications for using survey data to improve student mental health at your college, and discuss what we need from future surveys.

Learning Objectives

After this training, participants will be able to:

- Describe research opportunities and needs within the California Community Colleges' (CCC) Health Services.
- Outline ways to effectively link available CCC health data with programs and services at their college.
- Identify ways that survey data can be utilized to develop new & enhance existing mental health and wellness programs.

Presenter & Background

Susan Quinn, MSN, FNP

Susan has worked in the CCC system as the Director of Student Health Services at Santa Rosa Junior College since 1995. Active in HSACCC's Research Committee since 2007, she has been involved in developing the HSACCC-NCHA Consortium Project and the HSACCC Annual Survey. Susan received her BSN from the University of Michigan, and her MSN-Nurse Practitioner training from Sonoma State University.

Other Meeting Highlights – Get the latest regarding:

- Behavioral Incident Teams
- Finding Grants and Funding Resources
- Working with Trainees / Starting a Training Program
